

# Efficiency at its best

High-end heat pump | Basic Line Ai1 Geo

# Basic Line Ai1 Geo | Power range from 5 – 13 kW

reddot award 2016  
winner

A+++ und A+: Energy-efficiency class combined system (incl. WWPRI controller) heating W10/W55 and DHW preparation. Variations within the series possible.

## Everything in one unit

The Ai1 Geo offers a perfect solution for cost-conscious clients. Ai1 stands for "All in One". The complete system provides all the heating functions you need. The Ai1 is a complete central heating system.

## The advantages of a geothermal system

The Ai1 Geo provides heat in the winter, cooling in the summer, and hot water year round. Energy from the ground means: very good efficiency, low operating costs and almost silent operation.

## Well-equipped – easy to operate

Standard features include the high-quality control unit, a 170 l hot water tank and the weather-based controller. With the optional Web Interface NetBase the Ai1 can be controlled via the Internet.

## Suitable for every living room

The slender unit requires only little space. With the attractive design you can integrate it ideally into your living area. The Basic Line Ai1 Geo is a robust unit that will give you many years of pleasure.

## Features

- Compact heat pump Basic
- Monochrome, semi-graphic, 8-line display
- Central power switch
- 6 buttons and 3 indicator LEDs
- Numerous sensors in the refrigerant circuit
- Intuitive BasicPro control software
- Controlled operation for energy-saving pumps
- Hot water tank with 170-litre capacity
- Automatic Legionella protection circuit
- Integrated electrical heating element 6 kW
- Chlorine-free, environment-friendly refrigerant R410A
- Speed-controlled circulation pumps of efficiency class A
- Integrated vibration damper Silenter®
- Modular design for optimised transport and installation
- Easy to service unit design
- Connections installed on rear
- Unit dimensions: (H x W x D) 1743 x 600 x 650 mm

## Optional features

- Connection set
- Starting current damping (400 V)
- Integrated cooling module
- Controller expansion for a mixer circuit
- WebInterface NetBase BN Web

## Highlights

- High quality control unit
- Low operating costs due to COP values up to 4.9
- Automatic Legionella protection circuit
- Integrated vibration damper Silenter®
- Reduced space requirement 0.39 m<sup>2</sup>

WATERKOTTE

## Technical data | Basic Line Ai1 Geo
